

LOOKING AT THE NEWS WITH COLONEL HUGH CLARK

In one of his books John Buchan has a character who predicts that the next war will be more deadly to civilians than to soldiers. Conspiration will not be needed any more because the front will be the safest place of all. Just the same, we think that a lot of dark devils will choose to stay at home and that there will be others safe at the front peering headquarters for leave.

The United States has still some influence in Europe. It can have San Juan arrested over there at any time.

J. P. Morgan denies that he subsidizes the Nazis in Germany. They were not on the preferred list.

Civilization will not crash, says Einstein. Glad to hear it, but it must be owned that the world left nothing undone to make it crash, even when spending millions of lives and billions of dollars to save it. We accept Einstein's world for it, because we could never understand his explanations and arguments, anyway.

In an income tax action filed in New York against Charles E. Mitchell, the curious judgment was handed down that a man who is guilty of illegal act if his lawyer in good faith advised him it was legal. Such a decision cannot be accepted as a precedent unless it is coupled with another, that action lies against the lawyer who gave the unadvised advice. The State must find some one who can be held responsible for an illegal act and the lawyer who advises that illegal act is a fit and proper person to prosecute if his client is not so.

One of the leaders of the Canadian Commonwealth Federation expresses confidence that they will be at least strong enough in the next parliament to compel adoption of their program. With an unassailable majority.

Grey Falcon has been charged with having failed to prevent the world war. His critics alleged that Germany would not have attacked France if Grey had not given an earlier date that Britain would in that event declare war. In a government that contained John Morley and John Burns, Grey could not have done other than he did. An earlier announcement might have postponed but could not prevent the world war. Those huge armaments and that superb army were not built up for nothing. As we have noted before when a man buys a gun, he is not buying to mope, he is buying to shoot. He is investing in a loss.

Quinn McGuire arrested on Golf Links—Headline in Chicago paper. He will not be charged with having made a hole in one.

Roosevelt has all the powers of an autocrat but we imagine he is taking on more than he can handle when he undertakes to control pigs.

An automobile collision about advertised for the Canadian National Exhibition was called off. Some said it was a very dangerous affair while others said there was no chance of anybody's being hurt. A pleasant surprise of these two reasons it was cancelled we could not well make out.

The National Recovery Act is worked on the assumption that is an employer of labor will not accept the

Dime Eagle the public will give him the bird.

This is not a favorable time in which to pay off public debts; neither is it a favorable time to increase them yet federal, provincial and municipal issues are being offered to the public. When times are good we have no need to provide for expansion; when times are ill we borrow to meet the results of contraction. There never seems to be a favorable moment for paying off public debts but there is always occasion to increase them.

ALBERTA SEED

GROWER HONORED.—Distinction came this year to A. C. E. Grenville, pure seed grower of Morrin, Alberta who was selected by the Canadian Seed Growers' Association as the Canadian farmer to be honored by election as Robertson associate member, with the awarding of the accompanying medal. This distinction was awarded by outstanding work over a period of years in pure seed production. Mr. Grenville is the only farmer in Canada to receive this honor at this year, and is the second in Alberta seed grower to receive it, two years ago the distinction having been given to Neil Lindon of Wetaskiwin, for many years a noted seed grower. Mr. Grenville has been an exhibitor of seed grains for a number of years at Chicago and other fairs and at the world grain congress in Regina he was second place in western dry grass seed. He was born in 1872 in the province of Ontario, Alberta in 1908, having farmed since then near Morrin.

THE CANADA YEAR BOOK, 1933

The publication of the 1933 edition of the Canada Year Book is announced by the General Statistics Branch of the Dominion Bureau of Statistics. The Canada Year Book is the official statistical annual of the country and contains a thorough up to date account of the actual resources of the Dominion and their development, the history of the country, its institutions, its demography, the different branches of production, trade, transportation, finance, education, etc. In brief, a comprehensive study within the limits of a single volume of the social and economic condition of the Dominion. This new edition has been thoroughly revised throughout and includes in all its chapters the latest information available up to the date of going to press.

The 1933 Canada Year Book extends to over 1,100 pages, dealing with every phase of the national life and more especially with those susceptible of statistical measurement. Attention may be specially directed to the statistical summary of the previous year.

The volume is illustrated by many maps and diagrams and the latest available data is everywhere included. Illustrations and trade statistics for the fiscal year 1932-33 and miscellaneous agricultural figures of the 1933 Census will be found in the Appendix.

ROCKYFORD

The Canadian National Railway Bridge and Building Crew have been very busy for the last two weeks putting in a new platform at the depot. This is being built of plank and is very heavy timbers and looks as though it would never wear out.

A large portion of the wheat in the district is already threshed and threshing machines are busy in every direction. There is still some grain to be combined. The wet weather of last week delayed many in the harvest. The yield is showing very good and the largest part being No. 1 wheat.
